

A row of white ceramic jars with gold-colored lids is shown in a shallow depth of field. One jar in the foreground is painted a vibrant red, standing out from the others. The background is a soft, out-of-focus white.

EvoCoating PACKAGING COATINGS

MADE IN GERMANY

► The Company

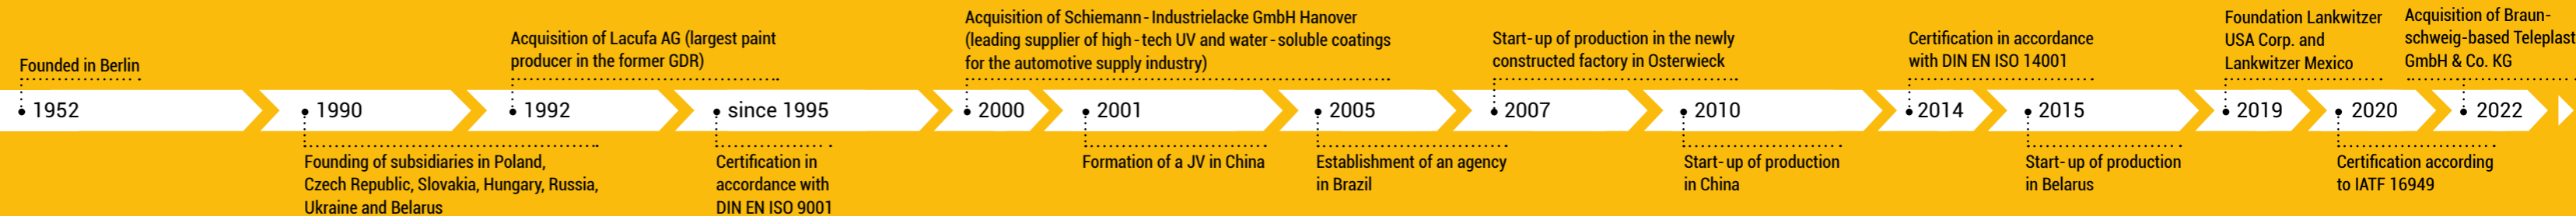

WORLDWIDE ACCLAIM, MADE IN GERMANY

Founded in 1952, Lankwitzer has established itself worldwide as a premium supplier of industrial coating systems. Lankwitzer's trademarks are top-class quality made in Germany, a high degree of flexibility, outstanding innovative strength and a customer-driven mindset. The key to our success is global availability of all our products and ongoing customer support provided by a highly-qualified team of developers and technicians.

The highest level of professionalism and a passion for our products ensure that we are a reliable partner for customers around the world as well as a leading manufacturer of cutting edge coating systems in the ACE (agricultural, construction and earth-moving equipment), railway, pipe, automotive and plastic packaging sectors.

As an owner-managed family enterprise, we operate independently, quickly, without hierarchical barriers – and take personal responsibility for our promises.

PRODUCTS

◀ MONOBLOC CANS

Our product portfolio includes interior and exterior protective coatings for aluminium monobloc cans. With our variety of colours we ensure the widest possible design potential.

FOOD CANS ►

Extensive protection for your tinplate packaging is at your disposal. We are also highly experienced with BPA ni systems.

CAPS & CLOSURES ►

You love it colourful, so do we. Colours are our world. Through flexibility and speed we support your marking projects. You will find coloured paints, overlay lacquers and adhesion coatings in our portfolio.

◀ RIGED PLASTIC

As market leader in UV coatings we help you with environmental conscious coatings for the perfect application. Colouring systems complete our product portfolio.

◀ GLASS BOTTLES

Give your flacons the special touch with our 100 % UV systems. Design with our experts your unique packaging.

ALUMINIUM TUBES ►

You will find complete coating solutions with us. Interior protective coatings, tube sweat enamel and the appropriate sealing compound are available from us for your specific applications.

We have a large number of locations worldwide that stand out due to their infrastructure and the high technical standard of our service and sales teams. Direct networking between the employees of all our subsidiaries drives forward our developments and ensures fast order processing. Our company's success is built on these firm foundations.
